#### 6. Campus Community Comments / Discussion

- Because all of the attendees were graduating, we took the time to talk about what drew them to become part of SGA this year:
  - It is a good opportunity to help other students by creating change.
  - You have a direct line to talk to the Administration. You feel like your voice is being heard.
  - It is a resume builder.
  - So I could be an advocate for students with disabilities.
- Jerry also responded to the question of what encouraged him to join meetings this year:
  - Dr. Monaco made this one of his goals this year. In the past, he could not attend due to scheduling issues.
  - He really enjoyed getting to know all of the students in SGA. Being able to sit, listen, and observe helped him perform at a higher level.
